If you play Pokémon GO, then you of course want the best possible Pokémon you can get. The thing is, knowing how good an individual Pokémon is goes far beyond just looking at its CP and move set. Each Pokémon has its own IVs—Individual Val. The number “IV” is the Roman numeral of the number four. In the Roman number notation system, “I” is the equivalent of the number one in the Hindu-Arabic numbering system, and “V” is the equivalent of the number five. This numbering system. pμ™ ,
